# Welcome to the Margaretville Telephone Company!

The Margaretville Telephone Company (MTC) has a long history of providing reliable telecommunications services to residents and businesses located throughout the rural Central Catskills Region. Established in 1916, MTC has transitioned from a business offering basic telephone service to 16 dairy-farms, into a company providing a suite of voice, video, data, and commercial services to over 8000 customers throughout portions of Delaware, Greene, Schoharie, and Ulster Counties. MTC is a founding partner in the Delaware County Broadband Initiative (DCBI), a partnership with the Delhi Telephone Company, Delaware County Electric Cooperative, and Empire State Development facilitating the deployment of 2000 miles of fiber optic facilities supporting broadband expansion to unserved residents.

Throughout the years, MTC has strived to provide excellence in customer service, foster business relationships, and expand investments back into our communities. In 2018, MTC transitioned to an employee-owned company further strengthening the dedication to customer service, community involvement, and benefits of local ownership.

Thank you for choosing MTC as your communications and entertainment provider! Please let us know if you have any questions, recommendations, or concerns regarding the services we offer.

The Employees of the Margaretville Telephone Company.

### ANNOYANCE CALLS

If you receive a malicious or annoying telephone call, hang up. Don't keep talking. That is what the caller wants. If the calls persist, please contact your Telephone Business Office. Our representatives are specially trained to help you. In difficult cases, we will work closely with you and police officials to catch the offenders.

It is a crime under both Federal and New York law to make a telephone call for annoying or harassing purposes or, in the case of Federal law, to knowingly permit a telephone under one's control to be used for such purposes. This includes calls in which the caller remains silent, as well as those in which the offender is threatening or obscene. The penalty under the state law can be imprisonment for one year and a \$1,000 fine and under Federal law, imprisonment for six months and a \$500 fine.

# SERVICE & BILLING

## Establishing Or Transferring Telephone Service

- To establish or to transfer new residential telephone service, please call your local service office.
- To establish or to transfer new business telephone service, call or visit your local service office.

To enable us to process your order to establish telephone service, we will need to know your complete address, and how you want to be listed in the directory. We also need to know about previous telephone service in your name and other credit information. We will ask for identification and a number where you can be reached, either at work or through a friend or relative until your service is established.

## Installation Rates

Installation rates will vary with the needs of your service. There are many steps involved in installing your telephone service, but not every customer needs each step. The amount of work needed to install telephone service for you will depend on the type of facilities and service you want.

## Your Telephone Bill

### How You Are Billed

Charges for local service and equipment are billed one month in advance. Service charges are billed after they have been placed. Charges for toll or long distance calls may appear on the same bill covering a period of one month ending about fifteen days prior to the date of the bill.

MTG offers many convenient methods for making payments on your account. Payments may be made automatically, by mail, by phone, in person and our website [mtctelcom.com](http://mtctelcom.com).

## Bill Payments

Paying by mail - please mail payments to:

Margaretville Telephone Co.  
P.O. Box 260  
Margaretville, NY 12455

When mailing payments please use the return envelope that has been enclosed with the bill. Return the BILLING PAGE with your payment. If the page has been misplaced, write your telephone number (including your area code) on the check.

Where bills may be paid in person (please bring bill and payment page) - bills may be paid in person at the telephone office or:

The Delaware National Bank of Delhi  
Margaretville Office  
42568 State Hwy. 28  
Margaretville, NY 12455

Wayne Bank  
314 Main St.  
Andes, New York 13731 or  
53898 State Hwy 30

Roxbury, NY 12474  
NBT Bank  
723 Main St.  
Margaretville, NY 12455

MTG also offers ACH or EFT (Automatic Bank Payments or Electronic Funds Transfer). With MTC your monthly payment will automatically be withdrawn from your checking or savings account. You'll no longer have to worry about writing checks or mailing the payment to us. You'll save on postage and time! Call our business office for more details & to get started with an ACH or EFT payment.

## Online: Go to [mtctelcom.com](http://mtctelcom.com)

Instructions to pay online are on the website. You can make a payment under the **PAY NOW** option or go to **MY ACCOUNT** to view and make payments on your account.

**Auto Pay** allows you to call toll free 844-846-2687 and make a payment on your account.

## Error On Your Bill

If you have a question on your bill, call your local service representative. Explain the possible error to the representative who will help you. If the error cannot be resolved, please pay the undisputed charges on time so you'll maintain a good payment record while the problem is being investigated.

## Late Payment Charge

Customer bills for telephone service are due when they are rendered. A customer is in default unless payment is made on or before the due date specified on the bill.

If payment is not received by the 23rd day of the month, a late payment charge of one and one-half percent (1-1/2%) per monthly billing period will be applied to all amounts in arrears and on the unpaid late payment charges excluding one month's local service charge.

## Paying The Bill On Time, So Your Service Will Not Be Disconnected

If your payments are not received by the due dates, or you do not meet your mutually agreed upon payment arrangements, your telephone service may be disconnected.

## How To Get Your Service Restored

All past charges must be paid or a payment arrangement must be made before your service can be reconnected, and you will be charged a restoral fee. You may be asked to pay a deposit.

## Obtaining Telephone Service by Fraudulent Means

The law states that it shall be unlawful for any person(s) to obtain or attempt to obtain telephone service by fraudulent means with the intent to avoid payment of lawful charges. Any person(s) violating this law will be prosecuted.

# GENERAL INFORMATION

## Dialing Instructions

**For any customer within the 845, 518, or 607 Area Codes, 10-Digit Dialing is necessary**

Margaretville and Andes numbers are toll free.

Dial the full 10-digit telephone number (845-586-XXXX or 845-676-XXXX).

Margaretville customers (586) may call Roxbury toll free by dialing 1-607-326-XXXX and Fleischmanns by dialing 254-XXXX.

### Private Line Customers Only

- **Calls Inside The 845 Area**

Dial the 10-digit telephone number + area code XXX-XXX-XXXX. You do not need to dial "1" before the number.

- **On Calls Outside The 845 Area**

Dial "1" and then the appropriate Area Code and the Telephone Number.

- **Please note there will be a long distance charge for the call regardless of whether the digit "1" is dialed if the number is not located in your local calling area.**

### Long Distance Directory Assistance

There is a charge for each request from Directory Assistance.

- For numbers in the 845 area code .....**dial 411**
- For numbers outside the 845 area code and Canada .....**dial 411**
- 800, 844, 855, 866, 877 and 888 numbers .....**dial 1 + 800 + 555-1212 (Toll Free)**
- Area Code Information .....**See Pages 11-12 or dial OPERATOR**

### Customer Proprietary Network Information (CPNI)

The FCC has enacted new rules to protect the privacy of customer account information called Customer Proprietary Network Information (CPNI) contained in your telecommunications service records with MTC. CPNI includes any information we have as your telecommunications provider. These new rules require all telecommunications companies to implement new procedures that ensure that we only release CPNI to individuals listed on the account and further require that we get permission from you to use your account information in offering you additional services. Please note we do not and will not share any information about you with any third parties unless required by law.

Please be aware that the FCC rules will only allow us to release information directly to you when you call us if you are able to provide an established account password. We encourage our customers to come in and establish a password of their choosing or call us and request that we mail them your password to the billing address on the account.

While we agree that some of these rules may be confusing the FCC feels these new requirements are necessary to guarantee the privacy of your account information (CPNI).

# GENERAL INFORMATION

## Important Notice About Your Long Distance

In the past we have always contacted our customers to verify if you wanted to change your long distance. The FCC has come out with a ruling and we are no longer allowed to contact you before this change. If you are contacted by a long distance carrier and you tell them yes over the telephone, we will receive an order and we will have to change your long distance carrier. Your account will be charged to make the change and this could change part or all of your long distance service.

If you feel your long distance carrier was changed without your authorization please contact us at 845-586-3311.

## Selecting A Long Distance Company

All customers have Equal Access available to them. Equal Access is a long distance dialing program which allows you to choose a primary long distance company to handle calls placed inside and outside the Poughkeepsie LATA.

There is a charge per telephone line to change to a different primary long distance company.

## Primary Long Distance Company

With Equal Access, your selected long distance company will complete your calls inside and outside the Poughkeepsie LATA. The rates and regulations of this company apply to each of these calls.

You can verify your primary long distance company by dialing 1+700+555-4141. You will reach a recorded message which identifies your primary long distance company.

## Using An Alternate Company

Equal Access allows you to use an alternate long distance company by dialing an Access Code before the number you are calling. You may call the Business Office for more information.

## Long Distance Rates

Direct dial rates vary depending on what time of day you make the call and who your long distance carrier is. You need to check with your long distance carrier on when your long distance rates change and the rate they charge.

## Billing

Some long distance companies require that you establish an account with them before using their services.

Long distance companies will bill you directly or contact Margaretville Telephone Company Business Office to determine how you will be billed.

## Direct Long Distance Dialing

Direct dial if you wish to talk with anyone who answers. Rates for calls that you dial yourself are lower than for calls dialed by the operator.

Charging begins when the called telephone is answered in person or by an automatic answering machine.

- To call within your area code  
- dial the Area Code + Telephone Number
- To call outside your area code  
- dial 1 + Area Code + Telephone Number

## Credit For Wrong Numbers And Poor Connections

When you dial a call within your Regional Calling Area and reach a wrong number, have a poor connection or are cut off, hang up and dial "o" (Operator) right away. If the call was outside the Regional Calling Area (LATA) you will need to dial "00" to reach the operator of your long distance service. Explain what happened so the operator can arrange for the proper credit. The faster the problem is reported, the easier it will be to give you credit.

## Cramming

Cramming is the practice of service providers placing unauthorized, misleading, or deceptive charges on your local telephone bill. These charges include such things as contests, product or subscription purchases, etc: things other than the traditional telephone calls you are used to seeing on our bills.

However, should you have a charge on your bill that you suspect might be a cramming charge, please contact our business office at 845-586-3311 and we will investigate.

# LONG DISTANCE

## Types of Calls:

### Station-To-Station

Call station-to-station if you want to talk with anyone who answers. Rates are lower than person-to-person. Charging begins when the called telephone is answered either by a person or by an automatic answering unit.

- **Direct Dialed:** These are calls where the caller dials the number directly and no operator assistance is required. ***Toll rates are lowest for Direct Dialed Calls***
- **Operator-Assisted:** Station-to-station calls requiring operator assistance are charged at a higher rate than those that are completed without an operator's help. Higher rates are necessary to compensate for the costs of providing these specialized services. Included are calls such as coin telephone, collect, billed to a third number, and time and charges.

### Person-To-Person

Call person-to-person when you wish to talk to a particular person or extension number. Customers may place calls by dialing 0 + area code + number. Rates are higher than station-to-station and also apply when you talk to an alternate person or extension. Charging starts when conversation begins.

### Collect

You can call collect, either station-to-station or person-to-person, if the person or firm you are calling agrees to pay the charge. Customers may place calls by dialing 0 + area code + number.

### Conference (Operator-Assisted)

You can talk with several people in different places at the same time. Tell the "OPERATOR" you wish to make a "conference" call. A special charge will be made for this type of call.

### Wide Area Telecommunications Service (Inward WATS)

Station-to-station long distance calls may be made, without charge to you, to businesses that have wide area telecommunications service. They offer this service to their customers dialing from certain locations.

Dial "1" + 800 plus the special numbers of customers having this service. To determine whether the party you want offers this service dial "1" + 800 + 555-1212. This inward WATS directory assistance number serves the entire United States.

### Bill To The Third Number

You can make a long distance call from another telephone and bill it to your own telephone number or another number if that party agrees to pay for the call. Customers may place calls by dialing 0 + area code + number. When making a third-number call from a public (coin) telephone, the Operator must verify the third number charge by calling the third number and confirming that the charges will be accepted. If there is no confirmation the Operator cannot complete the call unless you can pay the coin rate or make the call collect.

### Time And Charges

Customers, when placing calls, may request from the "OPERATOR" the amount of time charged to the call and the cost associated with the call. This service requires "OPERATOR" assistance and the call may be either station-to-station or person-to-person.

### Mobile Calls – Air-Land-Marine

You can make local and long distance calls to automobiles, trucks, aircraft, boats and ships. Ask the "Operator" for the Mobile, Marine or High Seas Operator. For information on other Communications Common Carriers, consult the Yellow Pages or other business guides.

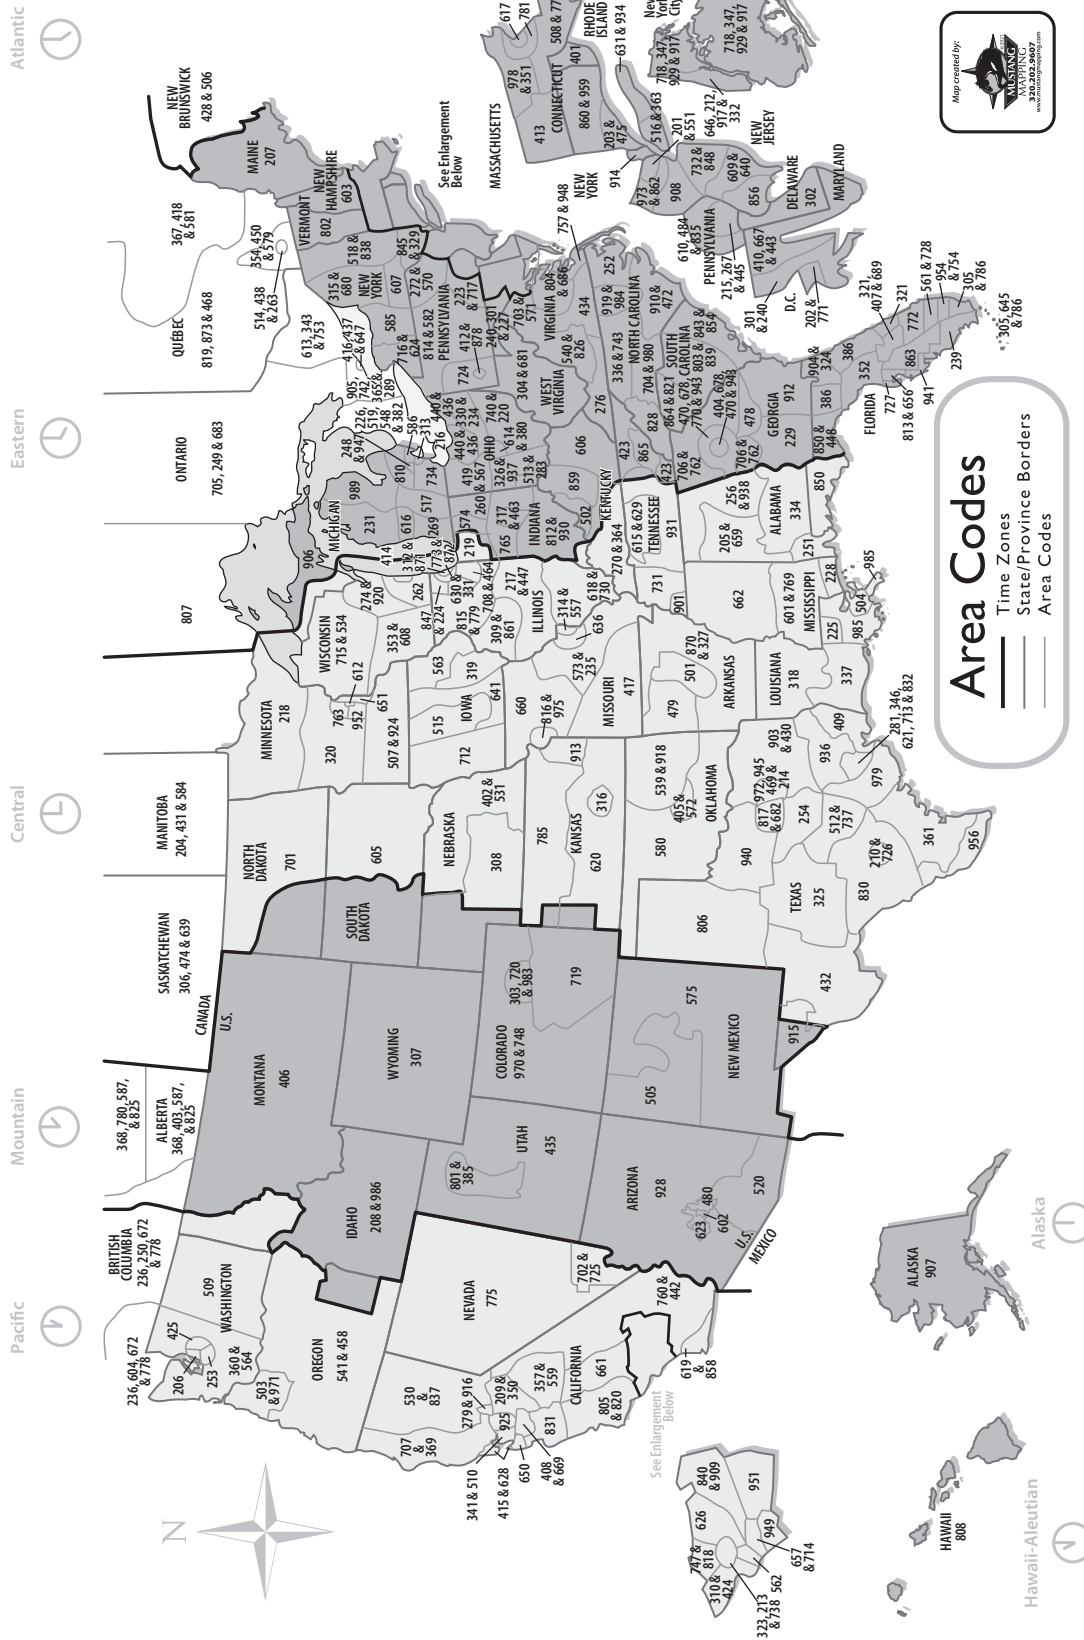

### Overseas Calls

To place overseas calls dial 011, then the country code, the city code, and the local number.

# AREA CODE MAP

# EQUIPMENT & SAFETY

## Recording Telephone Conversations

Customer-provided voice recording equipment may be connected to the user's telecommunications equipment. When such a connection is made, the customer-provided voice recording equipment must be arranged so that the user can activate or deactivate the equipment at will.

Under both federal and state law, only one party to a telephone conversation must give their consent prior to the recording of the conversation. Wiretapping or any other interception of a telephone call without this consent, other than by a properly-authorized law enforcement agent, is a crime. Punishment may include imprisonment and/or a fine.

## Customer-Provided Equipment

Equipment provided by a customer may be used with the Company facilities if such use complies with the Company's tariffs. Customers may want to contact the Telephone Company to advise of the type of equipment they are connecting in order to insure compatibility.

The tariffs are designed in the interest of good telephone service and to prevent hazards to customers and Company employees. A customer's service is subject to suspension or termination when customer provided equipment or wall jacks, plugs, extension cords, etc., are used in violation of these tariffs.

A service charge will apply when and if the Company makes a repair or service call and the trouble is found to result from the use of customer-provided equipment. These regulations are binding on both the Company and the customer.

## Troubleshooting Tips

Customers experiencing trouble with their service can avoid unnecessary service visits (and unnecessary costs) by taking a few simple steps that will help determine where the trouble originates. Before calling the telephone service department, they could try the following:

1. Disconnect all telephone accessories (such as answering machines and cordless telephone rechargers) from the line.
2. Be certain all jack and telephone connections are secure.
3. Inspect the handset cords at both ends to make sure they are in place.
4. Check for damage to the straight cord connecting the jack to the telephone.
5. Determine if moisture has gotten into the jacks attached to baseboards.
6. Try the telephones at other jacks in the house, or at a neighbor's house.

## Wire & Outlet Repair

Margaretville Telephone Company is responsible for the maintenance of telephone lines only up to the protector, which is the point on the outside of the premises where the company cable ends and the customer's individual line begins. All telephone wire and outlets established in the customer's premises are called inside wire and are the responsibility of the customer unless you have us maintain your inside wire and outlets. Therefore, customers who have inside wire in need of repair can choose whom they want to do the work.

They can service the wire themselves, hire a contractor or ask Margaretville Telephone Company to make the repair.

# EQUIPMENT & SAFETY

## Attachments To Telephone Equipment

Attachments connected to telephone lines must be in compliance with Company tariffs and Federal Communications Commission regulations.

## Telephone Safety

The telephone is one of the safest appliances in your home or office. There are, however, a few situations where a telephone user needs to be cautious.

### Use Of The Telephone Near Water

The telephone should not be used while you are in the bathtub, shower or pool. Immersion of the telephone or handset in water could cause electrical shock.

### Use Of The Telephone During An Electrical Storm

You should avoid using a telephone during an electrical storm in your immediate area; calls of an urgent nature should be brief. There is a remote risk of a dangerous electrical shock from lightning when using the telephone during a nearby electrical storm.

## Use Of The Telephone To Report A Gas Leak

If you think you have found a gas leak, you should not use a telephone in the vicinity of the leak until the leak is repaired. The telephone contains electrical contacts that could generate a tiny spark when you lift the handset and dial. While unlikely, it may be possible for this spark to trigger an explosion if the gas concentration is high enough.

## Specialized

### Telecommunications Equipment

Contact the Business Office for assistance in obtaining specialized communications equipment.

# GENERAL INFORMATION

## Handling Unwanted Telephone Calls

If you're bothered by harassing or anonymous telephone calls, try these techniques to discourage them.

- Always hang up immediately at the first obscene word or if the person on the other end of the line doesn't respond after you've said "hello" twice.
- Don't talk to the caller. This is what he or she wants you to do.
- Don't give out any information or let the caller know if you're alone. Teach your children to say, "Mom or Dad can't come to the telephone. May I take a message?"

If the problem occurs continuously over an extended period, you should report it to your local law enforcement agency and the Margaretville Telephone Co., and a "tap" will be placed on your line. Keep a record of the days and time of the calls, and note the caller's sex, voice, accent and comments. This information could assist the police.

It is a crime under both Federal and New York law to make a telephone call for annoying or harassing purposes or, in the case of the Federal law, to knowingly permit a telephone under one's control to be used for such purposes. This includes calls in which the caller remains silent, as well as those in which the offender is threatening or obscene. The penalty under the State law can be imprisonment for one year and a \$1,000 fine and, under the Federal law, imprisonment for six months and a \$500 fine.

## Telemarketing Calls

Under the Federal Telephone Consumer Protection Act and the New York State Telemarketing Consumer Fraud and Abuse Prevention Act, anyone making telephone sales calls to residential customers must identify the individual or business they represent and the purpose of the call. This information must be provided even if an automatic dialer is used. If a customer specifically asks not to be called again, the telemarketer must place that customer on a "do-not-call" list, which the telemarketer is required to maintain. Telemarketers are prohibited from making unsolicited sales calls between the hours of 9 p.m. and 8 a.m.

The Federal Communications Commission (FCC) and Federal Trade Commission (FTC) have established a national Do-Not-Call Registry that applies to all telemarketers (with the exception of certain non-profit and political organizations) and covers both interstate and intrastate telemarketing calls. Commercial telemarketers are not allowed to call you if your number is listed on the registry.

You may register your telephone number free, and it will remain on the national Do-Not-Call Registry for five years. You may re-enter your number onto the list when the five years have passed, and you may remove your name from the list at any time. The Do-Not-Call Registry will not prevent all unwanted calls. It does not cover the following:

- calls from organizations with which you have established a business relationship;
- calls for which you have given prior written consent;
- calls which are not commercial or do not include unsolicited advertisements;
- calls by or on behalf of tax-exempt non-profit organizations.

Consumers may register their residential telephone number on the national Do-Not-Call Registry at no cost by telephone or on the Internet. To register by telephone, consumers may call 1-888-382-1222. For the hearing impaired, TTY call 1-866-290-4236. You must call from the telephone number you wish to register. You may also register by Internet at [www.donotcall.gov](http://www.donotcall.gov). Inclusion of your telephone number on the national Do-Not-Call Registry will be effective three months following your registration or you can write to: Telephone Preference Service Direct Marketing Association Inc., PO Box 9014, Farmingdale, NY 11735.

## Fraud

For your protection, new equipment and procedures enable the Telephone Company to detect and investigate fraudulent calls such as charging to an unauthorized or non-existent number and calls involving misuse of credit cards. State law provides that no person shall defraud or attempt to defraud the Telephone Company of its lawful charges. Violators are subject to imprisonment of one year and/or fines up to \$1,000.

## Prosecuting Fraudulent Callers

It is illegal for another person to charge long distance calls to your number. People using unauthorized calling cards of telephone numbers to avoid charges are subject to prosecution and may be imprisoned, fined or both.

## Customer Outreach Program

Our main focus is to meet the needs of our customers. If at anytime we may serve you better by meeting with you or your special interest group, please let us know. We would be happy to explain our special services and programs. We also welcome anyone to tour our business office.

## Blocking Service

We offer a Blocking Service to customers who want to prevent calls from their telephones to recorded messages and group conversation ("gab line") services. Parents can order blocking to prevent their children from calling these services. To order Blocking Service call the Business Office at 845-586-3311.

## Rules for 900 Message

You have 60 days from the date of billing to dispute a 900 billing error. You have the right to withhold payment of the disputed 900 charges during the billing error review. No collection activity for disputed 900 charges will occur while the charges are under investigation. After investigation, if it is determined that the disputed 900 charges are legitimate, the information providers may proceed with outside collections against your account for non-payment of these charges. Your local and long distance service cannot be disconnected for non-payment of 900 charges. Failure to pay legitimate 900 charges may result in involuntary blocking of your access to 900 services. Voluntary blocking to 900 services is available upon request from Margaretville Telephone Company.

## Voter Information

If you have recently moved or are not currently registered to vote, you may mail in a voter registration form. To receive a form and additional voter registration information, please call 1-800-FOR-VOTE (1-800-367-8683).

# SPECIAL SERVICES

## Lifeline Service

Margaretville Telephone Company residential customers who receive certain public assistance benefits may be exempt from paying the Federal Access charge through a discount plan called "Lifeline". Federal programs qualifying subscribers for the low income program are: Medicaid, Supplemental Nutrition Assistance Program (SNAP), formerly known as Food Stamps; Supplemental Security Income (SSI), Federal Public Housing Assistance, Veterans Disability Pension, or Veterans Surviving Spouse Pension. Please call your Business Office if you believe you are eligible for the Lifeline Discount but are not currently receiving it. The number is located in front of your telephone directory.

## Special Service For Speech And Hearing Impaired

Speech and hearing-impaired customers of Margaretville Telephone Company are able to do something they have never done before. They can call anyone at any telephone in New York State.

Until now, people with speech and hearing impairments have had to use a TDD/TTY (telecommunications device for the deaf) to type a message into a machine, much the same as using a typewriter. It also limits calls to persons who have TDDs/TTYs that can transcribe the message.

Because of the New York State Relay Center, people with speech and hearing impairments will call a toll-free 800 number to reach the center. A communication assistant at the center will read the TDD/TTY message on a computer screen at his or her work station, and can call the hearing person to read the message aloud. The communication assistant then will relay the response back to the speech or hearing-impaired person via a TDD/TTY.

There are no restrictions on the length or number of calls an individual can place. The relay center will be in operation 24-hours a day, every day. The one limitation is that calls must be placed within New York State.

The service also permits hearing persons without a TDD/TTY to place calls to TDD/TTY users by calling a different toll-free number to reach the relay center.

The New York State Relay Center is being operated by Sprint in cooperation with all telephone companies in New York State. Long distance or locally charged calls placed through the New York Relay Service will be billed at Sprint or local telephone company rates.

To place a call dial 711 or:

TDD/TTY Users (*Hearing Disabled*)..1-800-662-1220  
Voice (*Non-TDD/TTY*) Users .....1-800-421-1220

Voice Carry-Over Users (*VCO*) ....1-877-826-6977  
ASCII Users.....1-800-584-2849  
Or 711 for all of the above services

Spanish to Spanish Only ..... 1-877-662-4886  
Speech to Speech Only .....1-877-662-4234  
Pay Per Call Only.....1-900-230-6565

General Inquiries:  
TDD/TTY Users

Voice (*Non-TDD/TTY*) Users.....1-800-664-6349  
Or go online at..... [www.NYRelay.com](http://www.NYRelay.com)

## CapTel

Captioned Telephone (Cap Tel) is a service that allows users to listen to their phone conversations while reading captions of what's said to them. Through the use of a uniquely designed Cap Tel phone, users speak directly to the other party and listen and read the other party's response. Captions appear on the bright, built-in display screen of the Cap Tel phone, just moments after the other party has spoken.

Captioned Telephone service works through the use of a Cap Tel phone which functions like a traditional phone, with an essential difference: it displays what the other party says throughout the conversation. Behind the scenes, advanced speech recognition software is used to deliver captions of calls while a live communication assistant accesses proprietary tools to ensure accuracy of what the standard phone user says.

Customer Service .....888-269-7477  
To call a Captioned Telephone user, dial:  
877-243-2823 English | 866-217-3362 Spanish

## Special Consumer Protections

The FCC has rules requiring telecommunications equipment manufacturers and service providers to make their products and service accessible to people with disabilities, if such access is readily achievable. These rules implement Section 255 of the Communications Act. If you have a disability please make sure to notify our business office at 845-586-3311.

If you are 62 years of age or older, blind, hearing/speech impaired or medically impaired, we can provide you with special protections regarding your telephone service. Because telephone service is essential to you, we can take extra precautions to ensure that your service does not get interrupted. We will make every effort to avoid interrupting your service because of non-payment, and we will take extra steps to restore your service rapidly in the event of a major service outage. In addition to these protections, we will be able to better assist you with other programs and services designed specifically to meet your needs. To do this, we need to identify all of the customers within our serving territory who are eligible and desire the special protections. If you are eligible, please indicate the group under which you qualify and contact the Business Office.

# CUSTOM CALLING FEATURES

## Speed Calling

Speed Calling provides one-digit codes for up to 8 of the telephone numbers you call most. You can dial both local and long distance calls with Speed Calling.

### To Place A Speed Call:

When you hear the dial tone, dial the Speed Calling code (2 through 9) assigned to the number you're calling. If your telephone is Touch-Tone and equipped with the pound symbol (#) key, press the code number and then the # key.

### To Add Or Change A Speed Calling Code Number:

#### 8-Code Speed Calling:

- Listen for dial tone, then dial activating code \*74. (On a Touch-Tone telephone equipped with a pound symbol (#) key, press 74 and then the # key.)
- Listen for a second dial tone, then dial the Speed Calling code number to be changed or added.
- Next, dial the local or complete long distance number you want assigned to that code number.
- Two short tones indicate the new code and telephone number combination have been recorded.

### To Deprogram Speed Calling

Listen for dial tone, then dial activating code \*74. (On a Touch-Tone telephone equipped with a pound symbol (#) key, press 74 and then the # key.) Dial the Speed Calling code (2 through 9) previously assigned that you wish to deprogram. (On Touch-Tone telephone equipped with a pound symbol (#) key, press the Speed Calling code and then the # symbol.) Since no number was dialed, the number recorded will be blank.

## Call Waiting

This service lets you answer a second call while you are using your telephone.

### How It Works:

When you are using your telephone, when someone else calls you will hear a brief tone signal. The person with whom you are talking will hear a slight click. Ten seconds later you will hear a reminder tone. The incoming caller only hears the usual ringing signal.

### To Answer The Second Call:

If you wish to end the first call, hang up. Your telephone will ring and the second (incoming) caller will be on the line.

If you want to hold the first call while answering the second call, press the switchhook once, firmly (1/2 second), and release it immediately. You will be connected with the other person on your line.

### Returning To The First Call:

To return to the first call, simply press the switchhook once, firmly, (1/2 second), and release it immediately. With this method, you can switch between the two calls as frequently as you wish.

### How To End Either Conversation:

After you have finished talking with either caller, hang up. Your telephone will ring and when you answer you will be connected with the person remaining on the line.

### Cancel Call Waiting:

Cancel Call Waiting may be activated in two ways.

Before the subscriber places the call dial \*70 on tone telephones or 1170 on rotary dial telephones. Listen for dial tone and dial the desired telephone number.

If the subscriber receives a call and you would like to Cancel Call Waiting, flash the switchhook and listen for dial tone. Dial \*70 on tone telephones or 1170 on rotary dial telephones. Listen for confirmation tone and you will reconnect to the existing call.

# CUSTOM CALLING FEATURES

## Call Forwarding

Call Forwarding lets you transfer your incoming calls automatically to any other telephone you can dial within the continental U.S.A. without the assistance of an operator.

### To Forward Calls:

Dial \*72. Listen for a second dial tone, then dial the number to which you want your calls forwarded. Two short tones will indicate the number has registered. Call Forwarding is in effect when the other telephone is answered.

Stay on the line for at least five seconds. If the line is busy or there is no answer, hang up and immediately repeat the first two steps.

Call Forwarding will be established automatically when you hear two short tones plus dial tone. No answer is required to activate Call Forwarding on the second attempt.

### To Cancel Call Forwarding:

Dial \*73. Listen for two short tones plus dial tone. Call Forwarding is canceled.

### Some Things To Remember:

Call Forwarding continues until you cancel it from your telephone.

You can still make outgoing calls from your telephone while Call Forwarding is established.

A short ring will be heard whenever your number is called to remind you your telephone calls are forwarded. You cannot answer these calls.

If other persons use your telephone, let them know when incoming calls are being forwarded – especially if they are expecting an important call.

Don't forget to tell the person who will receive your calls that you are using Call Forwarding – especially if you will not be where your calls will be forwarded.

You pay applicable charges, if any, for calls forwarded from your telephone.

## Three-Way Calling

This service lets you add a third person to your conversation.

### To Add A Third Person To Your Conversation:

Press the switchhook once, firmly (1/2 second), and release immediately. This puts the original call on "hold."

Listen for three short tones, then a dial tone.

Dial the telephone number of the third person to be added. After the third person answers, you may talk with that person before returning to the original call.

To return the original caller to the line and complete the three-way conversation, press the switchhook once, firmly, (1/2 second), and release immediately.

NOTE: If the line is busy or doesn't answer, cancel the three-way call by pressing the switchhook once. Continue the original conversation or try again.

### To Remove Either Person From The Conversation:

The original called party just hangs up to disconnect.

The third person is removed by your pressing the switchhook once and releasing it immediately, or by the third person simply hanging up.

All three connections are automatically disconnected when you hang up.

### To Add A Different Person:

Perform a "remove" step. Then repeat the first four steps.

## Call Answering

With Call Answering when you're on the telephone, not at home, or just can't answer the telephone, Call Answering takes over. Unanswered calls forward automatically to the Call Answering system (located at the Telephone Business Office) where callers receive your personalized greeting telling them you are unavailable and asking them to leave a message. Call Answering takes care of your unanswered calls 24 hours a day, 7 days a week, and your messages are only a telephone call away.

## Call ID Name & Number

Call ID Name & Number will display the telephone number and name from which a caller is making the call with the aid of a special telephone display device. A Call ID Name & Number display device must be purchased for all Call ID Name & Number subscribers. One may be obtained through Margaretville Telephone Company or where any telephone equipment is sold.

# CUSTOM CALLING FEATURES

## Anonymous Call Rejection

Anonymous Call Rejection will prevent an incoming call from ringing at your residence or business if the caller has stopped the display of their telephone number with All-Call Restrict. The service can work either with Call ID or without Call ID.

## Per Call Restrict

Per Call Restrict displays your number to Call ID subscribers. However, if you choose to prevent your number from being displayed to a Call ID subscriber, dial the \*67 (1167 from rotary/pulse telephones), wait for dial tone, then proceed to dial the telephone number.

## All Call Restrict

All Call Restrict prevents your number from being displayed to all Call ID subscribers. To allow your number to be displayed, dial the code \*82 (1182 from rotary/pulse telephones), wait for dial tone, then proceed to dial the telephone number.

## Repeat Dialing

With repeat dialing you will not have to waste time dialing and redialing a busy number. Simply dial \*66 (1166 from rotary/pulse telephones) and your telephone will dial the last number you called. If the line is busy, Repeat Dialing continues to dial till it gets through or up to 30 minutes after you have tried the number. To cancel your request dial \*86 (1186 from rotary/pulse telephones).

## Call Return

Call Return will tell you the number of the party who last called you. All you have to do is dial \*69 (1169 from rotary/pulse telephones).

## Call Trace

Customers can trace an annoyance telephone call by dialing \*57 (1157 from rotary/pulse telephones) right after the call is ended. If the call can be traced, follow the directions you are given. The calling party's number will then be recorded in Margaretville Telephones central office. Customers must notify the Business Office after the trace code is activated. If we are able to identify the calling party's number, the information will be given to the police. There is a charge for every time this feature is used.

# CONSUMER RIGHTS

## Statement Of Nondiscrimination

"Margaretville Telephone Company, Inc." is the recipient of Federal financial assistance from the U.S. Department of Agriculture (USDA). The USDA prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

The person responsible for coordinating this organization's nondiscrimination compliance efforts is Glen Faulkner, General Manager. Any individual, or specific class of individuals, who feels that this organization has subjected them to discrimination may obtain further information about the statutes and regulations listed above from and/or file a written complaint with this organization; or the Director, U.S. Department of Agriculture, Office of Civil Rights, 1400 Independence Avenue S.W., Washington, DC 20250-9410; or call toll free (866) 632-9992 (voice) or (800) 877-8339 (TDD) or (866) 377-8642 (relay voice users). USDA is an equal opportunity provider and employer.

## Your Rights And Responsibilities As A Residential Customer

As a Margaretville Telephone Co. Inc customer, you have certain rights and responsibilities. These rights and responsibilities result from New York State Public Service Commission (PSC) Rules Governing Provision of Telephone Service to Residential Customers.

## Questions or Problems

Contact us as soon as possible if you have any questions or complaints about your telephone service. We will try to give you a prompt answer. Our representatives are available to help you between 8:30 AM and 4:30 PM during business days.

To get your questions answered fully and as quickly as possible, we suggest you call our Business Office at 586-3311. If you prefer, you can write to Margaretville Telephone Co. Inc., P.O. Box 260, Margaretville, N.Y. 12455 or visit our Business Office. As with any correspondence, please include your telephone number and as much information about the problem as you can. Whether you phone, write, or visit, our service representatives will do their best to handle your inquiry promptly and considerately. If, however, you are not satisfied with our representative's response, please ask to speak to a supervisor. For consumer complaints that cannot be resolved with the company, you may contact the New York Department of Public Service (DPS). DPS complaints may be directed as follows:

**Website:** [www.dps.ny.gov/complaints](http://www.dps.ny.gov/complaints)

**Phone:** DPS Helpline (M-F 8:30a-4:00p)  
1-800-342-3377

**or Mail:** Office of Consumer Services,  
NYS Department of Public Service,  
3 Empire State Plaza, Albany, NY 12223

While your complaint is being considered by the Public Service Commission, we will not disconnect your service for failure to pay the amount in question. However, all undisputed bills must be paid when due to ensure continued service.

## Billing

We have a responsibility to provide reliable telephone service to our customers, and you have a responsibility to pay bills for telephone service promptly. Bills are due by the payment date shown on your monthly bill.

**Where to pay.** The most convenient way to pay is by mail, using the return envelope enclosed with your bill. You can also pay in person at our Business Office, 579 Main St., Margaretville, N.Y.

# CONSUMER RIGHTS

## Final Termination Notice

If payment is not received 23 days from the date of the bill, Margaretville Telephone Co. Inc. has the right to mail you a Termination Notice. Termination of service (you will be unable to either make or receive calls) may occur no sooner than 20 days after the notice is mailed. This Termination Notice allows you the opportunity to arrange payment and avoid interruption of service.

The Termination Notice also advises you of the availability of a Deferred Payment Agreement (DPA) and describes its provisions. (See Deferred Payment Agreement on this page.) If you are eligible for, and sign a DPA, we will not disconnect your service as long as you make the agreed upon payments. If there are no questions about the bill and you fail to pay the amount shown on your Termination Notice or, if eligible, do not enter into a DPA with us, your service will be terminated. Should you qualify for the Special Protections described on the following page, your service will not be terminated. Customers with terminated service or canceled accounts may be required to pay a deposit to reestablish service.

## Application For Partial Payments Only

If you make a partial payment, which does not exactly equal a past due total balance, and it is received within the first 10 days after the first of the month, your payment will be applied first to past due charges for basic service, then to past due charges for other services prior to application to any current charges.

Such payments received 11 days or more after the first of the month will be applied first to total basic service charges, including current charges, prior to application to charges for other services.

## When Service Can Be Terminated

We are allowed to terminate residential telephone service for nonpayment only between 8:30 AM and 4:00 PM Mondays through Thursdays. We cannot terminate service on a public holiday, the day before a holiday, any day our Business Office is closed, or during the period of December 23 through December 26 and December 30 through January 2.

## Reconnection Of Service

If we terminate your service, we will reconnect it within 24 hours after you have paid the amount due, or signed a Deferred Payment Agreement and made the down payment. If service is terminated, there is a charge of \$20.00 to reconnect the service.

## Deferred Payment Agreement

If you have a problem that prevents you from paying your bills, you may be eligible to sign a Deferred Payment Agreement. We are only required to offer a DPA on Basic Local Service. No more than \$150 can be deferred. Under the DPA you will be obligated to make regular installment payments for a period of time up to 5 months to pay the deferred amount and make payment of current charges for service by the due date stated on each month's bill. A down payment may be required in the amount of 20% (1/5) of the deferred amount, or in an amount equal to three month's average billing for your account, whichever is less, plus any past due amount in excess of \$150.

Other long distance charges may be restricted unless satisfactory payment arrangements can be arranged. The agreement can be changed if you show us that there are significant changes in your financial condition beyond your control. If you need assistance in understanding a Deferred Payment Agreement or assistance in reaching an agreement with us, the Public Service Commission has a staff available to help you. You may reach one of their representatives at 1-800-342-3377 (toll free) between 8:30 AM and 4:45 PM on business days.

# CONSUMER RIGHTS

## Special Protections

Medical Emergency - if you are unable to pay your bill and a medical emergency exists in your household, we can help you. If you file a medical certificate with us, signed and submitted on the official stationery of your doctor or an official of the local Board of Health stating the nature of the serious illness or medical condition, we continue your service for 30 days. The medical certificate can be renewed. To do so, your doctor or an official of the local Board of Health must explain the expected duration of the emergency and why service is needed, AND you must demonstrate why you are unable to pay your telephone bill.

During the emergency, we will not terminate your service because of non-payment of the outstanding amount. We will also defer payment of up to \$30 for each bill you receive while the emergency exists, but you remain responsible for your bills. Elderly (62 or older), Blind, Disabled - In residences where all members of the household are known to the Telephone Company to be 62 years of age or older, 18 years of age or younger, blind or disabled, we will continue service for an additional 20 days after the date of termination as stated on the Termination Notice.

Margaretville Telephone Co. Inc. will attempt to contact the customer or an adult resident at the customer's premise at least eight days prior to the date on which service may be terminated to try to work out a payment arrangement.

## Third Party Notification

All residential customers may choose a third party to receive copies of all credit notices. A third party notice may keep your service from being turned off by mistake.

You may choose a relative, friend, a member of the clergy or a community agency to be a third party for you. The selected party must agree to be a third party and will receive copies of any credit notices we send to you because of overdue bills. The third party can contact us on your behalf and help you work out any payment terms with us. Remember, however, that the third party is NOT responsible for paying your bills.

## Application For Special Rights Program

If you believe you may be entitled to certain protections as described, you may obtain the necessary forms from our Business Office.

Please fill in the blanks and check the appropriate box(es). Then sign and date the form and return it to the Business Office. Our address is P.O. Box 260, Margaretville, NY 12455.

Margaretville Telephone Co. Inc. enjoys a good relationship with our customers and stands ready to assist customers in making it possible to continue to enjoy telephone service by making payment arrangements when special circumstances arise.

We sincerely hope you are satisfied with the telephone service we are providing, but if at any time you have a problem, please contact our Business Office and give us an opportunity to correct any problems that may exist.
